**ADDITIONAL INSPECTION AND SERVICE MAY BE NECESSARY**

If your vehicle has been driven under "Special Operating Conditions" as noted in your Scion Warranty and Maintenance Guide, services such as an oil change, oil filter replacement and additional inspections may apply. Please consult your Service Advisor and/or your Scion Warranty and Maintenance Guide for information on additional inspections and/or Special Operating Conditions.

Please remember additional work may be recommended after inspection, and the likelihood will increase as the miles on the car get higher. Since everyone has different driving habits, it's not possible to determine when and what components will need to be repaired or replaced. Contact your service advisor for pricing.
